## Fee for Service (Pay as you go)

The fee for service rate is charged to patients not covered under any retainer or for encounters outside the limits established for each retainer plan. These fees may be submitted to your insurance for re-imbursalment but you are responsible for payment if insurance does not pay.

Service	When Retained	When not Retained
Single 1 Hour In-Person Visit	\$100 - \$225	\$100 - \$225
30 minute Teleconference	\$100	\$100
15 minute Teleconference	\$50	\$50
Myers Cocktail (IV Therapy)	\$100	\$200
Myers Cocktail Mini (IV Therapy)	\$75	\$150
Injections (minimum, some may be higher, prices vary by medication received)	\$20	\$30

## Stem Cell Therapy Prices

The prices below are the costs for each injection location. So, for example, if you receive a 2cc injection in each hip, you would pay for two (2) 2cc injections. This is done to insure you receive the best distribution of stem cells from the vial. Stem cells are not always equally distributed within a vial. So, in the example, if you had purchased a 4cc injection instead one of your hips might receive more stem cells than the other. Purchasing separate injections for each location ensures that each injection location receives the appropriate quantity of stem cells.

Stem Cell Quantity	\$ when Retained	\$ when not Retained
1cc	\$1,900	\$2,300
2cc	\$3,100	\$3,500
3cc	\$4,700	\$5,100
4cc	\$5,900	\$6,400
1cc Exosome	\$800	\$1,200
2cc Exosome	\$1,200	\$1,800
5cc Exosome	\$2,400	\$3,600

We offer 90 days same as cash plan. If you want to take advantage of this plan, you must pay ½ of the total prior to receiving your stem cell therapy injection and then you have 90 days to pay the remaining amount.

Credit card payments require one business day for processing. Payments via check require seven to ten business days for processing. Payments must be processed prior to ordering Stem Cells.
